

## SEC-Required Report on Routing of Customer Orders For Quarter Ending December 31, 2018

Potamus Trading LLC has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, Potamus Trading has selected the execution venue on behalf of its customers.

The report is divided into four sections: one for securities listed on the New York Stock Exchange and reported as a Network A eligible security; one for securities listed on the Nasdaq Stock Market; one for securities listed on the American Stock Exchange or regional exchanges and reported as a Network B eligible security; and one for exchange-listed options. For each section, this report identifies the venues most often selected by Potamus Trading, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of Potamus Trading's relationship with the venues.

### Rule 606 Report: Network A Securities - NYSE

Non-Directed Orders as a Percentage of Total Customer Orders:					100.00%
Percentage of Non-Directed Customer Orders That Were:		Market	Limit	Other (includes 'Not Held')	
		0.00%	0.00%	100.00%	
Routing Information Concerning Significant Venues
